FROM

GAGANDEEP SINGH

Junior Developer

Dear Hiring Manager,

I was motivated to contact you upon learning that Upfeat Media Inc. has an opening for a new Junior Web Developer. I strongly believe that I am a good fit for your company and would love the opportunity to become a valued member of your team.

I recently graduated from ComIT and my program was centered on Web development using React. During this course, I have gained knowledge about HTML, CSS, Js and React. I also learned about making a website responsive with Grids and Flexbox.

I am very flexible with the ability to work different shifts and weekends when necessary and I can adapt to different types of work environments easily. I have a pleasant and friendly personality with the ability to work as a team or independently.

I stay updated on all the latest trends and developments associated with this industry and I have the knowledge to apply this information where appropriate. I also have the ability to adhere to all standards, rules and coding standards set forth by management.

For further details of my qualifications, background, and contributions, please take a moment to review my enclosed resume. I believe that I can successfully be the Junior Web Developer you're seeking and I welcome the opportunity to speak with you at your earliest convenience.

Thanks for taking the time to review my qualifications.

Sincerely,

Gagandeep Singh
